CHAIRMAN'S STATEMENT

Dear Shareholders,

The last financial year has been an eventful year for the economy with the roll-out of GST, the residual impact of demonetisation, the introduction of Indian Bankruptcy Code (IBC), and the NPA problem in the banking sector. However, towards the end of the year, green shoots in the economy were visible and the economy seemed poised for stable growth. The Indian economy expanded by 7.7 percent in the last quarter of FY18, the fastest in the last eight quarters, although rising crude prices and macro headwinds, both global and domestic, could prolong the journey to stable growth.

Against this macro-economic backdrop, I am pleased to inform you that our businesses have delivered a healthy performance in FY18 and thereby, building a foundation for future growth.

Balancing near-term profitability and long-term growth has been the guiding philosophy in our strategy for capital deployment.

Strong domestic consumption growth and flow of savings into the financial system from real assets (property and gold) are two pillars on which future growth of our businesses is predicated on. Our strategy is to steadily invest in our businesses to take advantage of these tailwinds.

The consolidated Balance Sheet of IDFC Limited (**"IDFC"**) as of March 31, 2018, was ₹ 1,33,852 crore, and the consolidated Profit After Tax was ₹ 590 crore. The consolidated Net Worth as of March 31, 2018, was ₹ 11,323 crore. IDFC Bank Limited (**"IDFC Bank** or **"Bank"**), our largest subsidiary, posted a Profit After Tax of ₹ 859 crore in FY18.

The strategic transition of IDFC Bank, from a mono-line infrastructure lender to a universal bank, is progressing rapidly. The Bank now has a well-diversified assets portfolio of ~ ₹ 71,000 crore with retail assets and non-infrastructure wholesale assets, contributing close to 50 percent. Similarly, on the liability side, our focus is on gathering low-cost CASA deposits by leveraging technology and expanding our physical footprint. I am pleased to note that this strategy is now seeing strong traction.

The Bank's organic retail assets, have tripled from ~ ₹2,600 crore as on March 31, 2017, to ~ ₹8,000 crore as on March 31, 2018. Likewise, corporate banking assets within the wholesale bank grew 38 percent year-on-year to ~ ₹26,000 crore as of March 2018, from ~ ₹19,000 crore as of March 2017.

Liabilities have also witnessed strong momentum with CASA increasing 2.7 times to $\overline{<}$ 5,710 crore as of March 2018 from $\overline{<}$ 2,094 crore as of March 2017. Government business contributed $\overline{<}$ 2,763 crore to the CASA franchise. The Bank's CASA to deposit ratio now stands close to 12 percent, which is impressive for a Bank that has been in business for a little over two years. Our CASA and retail term deposits, have doubled from ~ $\overline{<}$ 4,900 crore to ~ $\overline{<}$ 10,000 crore as of March 31, 2018, and now contribute over 20 percent to our total deposits.

The Bank's customer base is now at 2.7 million from 1.4 million a year ago. To accelerate this pace of growth, we will continue to judiciously invest in the expansion of our retail franchise. We now have 150 branches, 387 corporate BC outlets, 85 ATMs, and 17,474 customer access points. Of these 150 branches, 50 are in top 35 cities in India. We will continue to expand our physical footprint to be able to serve a larger number of customers.

The Bank has made great strides in building a fee-income franchise, which has resulted in a significant contribution of fees and commissions to our revenues. Total commission income grew by 44 percent to ₹ 431 crore in FY18 from ₹ 299 crore in the previous year.

On the asset quality front, it is heartening to note that the Bank's legacy

stressed asset book has been stable for the last 10 quarters, i.e., since the inception of the Bank. The recent RBI inspection also validates our prudent approach to provisioning. The Bank's provision coverage ratio against the stressed book is now over 75 percent.

IDFC Bank's proposed merger with Capital First will add an additional 2.5 - 3 million customers to the already large and rapidly growing customer base of the Bank and complement it with customer segments and products that IDFC Bank does not cover currently.

Coming to our asset management business, we ended the year strong, with a fourth quarter average AUM of about ₹70,000 crore, up from around ₹60,600 crore in the previous year's corresponding quarter. During the year, we strengthened our core capabilities and significantly expanded our retail distribution network. The number of investor folios added increased 4X in FY18 while addition of the sticky "Systematic Investment Plans" (SIPs) grew 2X.

I am pleased to place on record our improved fund performance during the year. The proportion of equity funds as a part of AUM rose to 29 percent from 22 percent in the previous year, driven by a significant increase in our gross equity fund sales. We now have seventeen funds with AUM of over $\overline{1,000}$ crore as against thirteen funds in the previous fiscal. The profits of our AMC business were lower at $\overline{5}$ 54 crore in FY18, as we made substantial investments in expanding our retail distribution network.

Our other subsidiary, IDFC Infrastructure Finance Limited, ended the year with a loan book of ₹ 4,220 crore, across a well-diversified portfolio of roads, renewables, education, healthcare, telecom, SEZ, and transmission among others. The asset quality continues to be pristine and the pipeline for disbursements remains healthy.

In our Securities business, notwithstanding the structural issues faced by the industry, we continued to do well. We strengthened our institutional sales and research to service domestic institutional investors and FIIs. This resulted in a well-diversified revenue mix across geographies and customer segments. In FY18, this business delivered a revenue of $\overline{105}$ crore and a net profit of $\overline{23}$ crore.

IDFC Alternatives has entered into a definitive agreement with Global Infrastructure Partners India, for the sale of its infrastructure asset management business. All necessary regulatory approvals for the sale have been received. The Company is also evaluating divestiture of the Private Equity and Real Estate platforms.

To sum up, FY18 has been a landmark year for us. I am proud of our employees who, despite the challenges faced, have worked hard to create consistent value for the company. I take this opportunity to thank each one of them for their sincere efforts.

I also thank you - our valued Shareholders, for placing your confidence in us. I look forward to your continued support.

ALTERATION OF ARTICLES OF ASSOCIATION OF THE COMPANY

RBI, while issuing Banking licence to IDFC being promoter of IDFC Bank, had stipulated certain terms and conditions, one of which being restrictions on the transfer of shares of IDFC that no person. without obtaining prior approval of RBI, directly or indirectly, by himself or acting in concert with any other person, can acquire 5% or more paid up equity share capital or voting rights therein of IDFC, which acquisition taken together with the shares / voting rights / compulsorily convertible debentures / bonds, if any, already held by him or his relative or associate enterprise or person acting in concert with him and / or which may result in aggregate shareholding or voting rights therein of 5% or more (directly or indirectly) in IDFC Bank, in a transaction or in series of transactions.

Further, Section 58 of the Act provides that the shares of a public company are freely transferable. However, Section 58(4) of the Act, recognises that in certain cases, the Board of Directors of a Company can refuse to register a transfer. Such a refusal can only be made for a "sufficient cause". The power to refuse a transfer can only be used under limited circumstances such as requirement of RBI in this case.

Before obtaining Banking license, the existing Article 60A was inserted in the Articles of Association (**"AoA"**)after taking approval of the Shareholders on March 30, 2015 by way of postal ballot. These articles restricted aggregate indirect shareholding of any individual or entity or group in IDFC Bank being equivalent to 5% or more of the paid-up voting equity capital of IDFC Bank, in order to avoid hostile takeover of IDFC / IDFC Bank.

However, banking license conditions prescribed by RBI on IDFC being promoter of IDFC Bank Limited requires putting the same restriction on aggregate shareholding of any person / person(s) acting in concert in IDFC Limited holding equivalent to 5% or more of the paid-up voting equity capital of IDFC.

In order to comply with the restrictions relating to transfer of shares in certain circumstances as required above, it is proposed to replace the existing Article 60A of the AoA. The Board of Directors recommends the same to the Shareholders of the Company. The resolution seeking approval of the Shareholders regarding the same forms part of the Notice of ensuing AGM.

MANAGEMENT DISCUSSION & ANALYSIS

MANAGEMENT DISCUSSION & ANALYSIS

MACRO-ECONOMIC ENVIRONMENT

The Indian economy emerged as one of the fastest growing economies of the world in 2017 and is most likely to maintain this position in 2018. India has been witnessing significant shifts on the structural front - including the implementation of GST and efforts from both the RBI and government to correct the "twin balance sheet" problem. Forecast of a good monsoon augurs well for agricultural growth and rural demand and there are also signs of strengthening industrial activity. A rise in global crude oil prices and a rebalancing in global capital flows are potential vulnerabilities but are unlikely to derail the progress.

India's macro-economics is currently set within a phase where global economic activity has continued to expand despite emerging geo-political tensions. Economic activity in major emerging market economies has largely remained resilient while oil prices have increased. Financial markets have remained volatile and have been mainly driven by monetary policy expectations and geo-political developments. Despite these challenges, India's GDP registered a growth of 6.7% in FY18.

INDIA'S GROWTH-INFLATION DYNAMICS

A downward growth trajectory that had emerged starting from Q1FY17 was aggravated by the demonetization exercise of November 2016. Introduction of GST in July 2017, a landmark structural reform, is expected to have positive impact on the economy with its share of near-term teething problems.

Although for FY18 as a whole, GDP growth was at 6.7% compared to 7.1% in full year FY17, GDP growth momentum improved through the various quarters of FY18 – from 5.6% in Q1FY18 to 7.7% in Q4FY18.

Headline retail (CPI) inflation had ended in FY17 at 3.9% and dropped to a low of 1.5% by June 2017 – mostly on a base effect from food prices. However, headline CPI peaked at 5.2% in December 2017 after vegetable prices showed a sharp pickup. By March 2018, headline CPI inflation dropped to 4.3%.

MONETARY POLICY AND DEBT RESOLUTION FRAMEWORK

The monetary policy stance was changed to "neutral" from "accommodative" in February 2017 and this was retained through FY18 with just one cut in the repo rate by 25 bps in the August 2017 meeting, bringing the repo rate down to 6%. With the repo rate cut, MCLRs declined across tenors till around February 2018, but tended to show some reversal in March 2018.

RBI also tightened the bad debt resolution framework in mid-February by withdrawing all existing schemes of debt resolution and replacing them with a single stricter code. The new code requires banks to implement a resolution plan for large borrower accounts within 180 days, failing which loans will have to be referred under the Insolvency and Bankruptcy Code ("IBC"). IBC was introduced to ensure time-bound settlement of insolvency and enable faster turnaround of business and is expected to bring about fundamental changes in creditor rights with long term implications for banking in India

OVERVIEW OF THE GROUP COMPANIES

IDFC BANK VISION & STRATEGY

The vision of IDFC Bank is to transform itself into a mass retail bank in 5 years through organic growth and acquisitions. Organically, the progress of IDFC Bank in terms of network and customers; diversification of assets; growth in CASA (Current Accounts and Savings Accounts) and core deposits; growth in fees and non-funded trade products and finally ring-fencing and managing stressed assets has been impressive in the short period since the launch of the bank in October 2015.

BUSINESS OVERVIEW

During the year, the wholesale banking business successfully navigated a challenging business environment, and has leveraged expertise and corporate relationships to deliver healthy growth. This has enabled the Bank to successfully transition from an infrastructure player to a preferred bank in the Emerging Large Corporate space.

In its second year of operations, IDFC Bank continued to expand its retail network, digital payment channels and product suite across customer segments, gaining significant momentum in terms of market coverage and customer acquisition. The Bank is building a 'click and mortar' ecosystem that enables customers to conduct their banking business flexibly, interacting directly with people at physical outlets and / or digitally. IDFC Bank has also adopted a granular perspective of customer segments and geographies. This has enabled it to find growth in segments that have been hitherto underserved. Through innovation, the Bank has also brought down the cost-to-serve customers, making outreach to the underserved, a profitable proposition.

IDFC Bank made profits of ₹ 859 crore in FY18 and proposed a dividend of 75 paisa per share.

NETWORK

The network of IDEC Bank as on March 31, 2018, comprises 150 branches. 387 Corporate Business Correspondent (BC) branches. 85 ATMs and 17.474 'customer access points'. Of the 150 branches, 50 branches are in the top 35 cities in India. The remaining 100 semiurban and rural branches are across Madhya Pradesh, Karnataka, Andhra Pradesh. Guiarat. Raiasthan. Tamil Nadu. Tripura and Meghalaya. In the two-andhalf years since its launch. IDFC Bank now has a presence in all the top cities in the country and a semi-urban and rural distribution footprint in 8 kev states.

CUSTOMERS

IDFC Bank now has 2.7 million customers. Of these, about 400,000 are urban customers and the remaining 2.3 million customers are semi-urban and rural. IDFC Bank has now been consistently acquiring over 1 lac customers a month and with the recent branch expansion covering the top cities in the last 6 months, IDFC Bank should continue to sustain this momentum of acquiring new customers.

FUNDED CREDIT

Although the gross corporate and retail assets of IDFC Bank were broadly unchanged over the last one year witnessing a 1% yearly growth from ₹ 70,249 crore as on March 31, 2017 to ₹ 70,932 crore as on March 31, 2018, the change in underlying composition of these assets was consistent with the strategic direction of aggressively growing retail assets and non-infra corporate banking within the wholesale bank. In fact, retail assets of IDFC Bank tripled from ₹ 2.599 crore as on March 31, 2017 to ₹ 7.966 crore as on March 31. 2018. The addition of close to ₹ 2,000 crore of retail assets in the last quarter indicates the build-up of a very strong momentum in the retail book of IDEC. Bank, Likewise, the non-infra corporate banking assets within the wholesale bank grew 38% annually from ₹ 18.949 crore as on March 31. 2017 to ₹ 26.059 crore as on March 31. 2018 with growth of the Emerging Large Corporate segment being the strategic focus.

CASA AND CORE DEPOSITS

The CASA franchise of IDFC Bank has grown strongly. It increased 2.7x from ₹ 2,094 crore as on March 31, 2017 to ₹ 5,710 crore as on March 31, 2018. Strong relationships of IDFC Bank with the government translated in the government business contributing ₹ 2,763 crore to the CASA franchise. The CASA to deposits ratio of IDFC Bank is now close to 12%, which is by no means insignificant for a bank that is just about two-and-half years old.

The core deposits of IDFC Bank (CASA and retail term deposits) almost doubled from ₹ 4,906 crore as on March 31, 2017 to ₹ 10,053 crore as on March 31, 2018. The core deposits now contribute about 10% to the deposits and borrowings of IDFC Bank.

FEES AND COMMISSIONS

IDFC Bank has created a strong non-fund based franchise amongst its customers which has significantly strengthened the contribution of fees and commissions to its financials. Fees and commissions grew by 37% annually from ₹ 360 crore in FY17 to ₹ 494 crore in FY18. In particular, recurring fees from trade and cash management grew by 88% from ₹ 65 crore in FY17 to ₹ 122 crore in FY18.

The underlying non-funded trade outstanding book of IDFC Bank grew by 50% from ₹ 18,605 crore as on March 31, 2017 to ₹ 27,905 crore as on March 31, 2018.

ENRICHED PRODUCT SUITE

Over the past two and a half years, IDFC Bank has built a complete retail suite of savings accounts and time deposits, customised to the needs of individuals, small and medium businesses and professionals.

IDFC Bank continued to delight customers with a wide array of self-assist tools that enable digital prepayment, part payment and closure of loans. With this, IDFC Bank is one of the few in the country to meet all loan service requirements on the mobile and / or via net banking.

During the year, the Bank strengthened its Wealth Management offering. It also launched its NRI Banking services to complete its liability product suite. The Bank offers a simple and unique digital account opening facility for NRIs based in 70 countries.

To deepen financial inclusion, IDFC Bank has placed a special emphasis on taking its services to segments such as marginal farmers, micro enterprises and self-employed customers. To serve these segments, the Bank has designed products across the spectrum of savings, assets and payments.

In deep rural locations, the Bank is promoting financial literacy and enabling customers to co-relate banking to life's goals and growth. Consistent engagement with customers has helped the bank incorporate their feedback, and design improved and customized products.

In line with the Government's agenda of promoting digital modes of payments, IDFC Bank introduced a number of services. IDFC Bank was amongst the first banks to onboard one of the largest electricity billers on NPCI promoted Bharat Bill Payment System (BBPS).

STRESSED ASSETS

The legacy stressed assets book of IDFC Bank has remained stable over the last 10 quarters. The recent RBI inspection validates its prudent provisioning norms. The provision coverage ratio against stressed assets book (excluding security receipts) is now over 75%. In fiscal 18, due to lack of progress on gas supply for gas based power plants, IDFC Bank made additional provisions of about ₹ 300 crore to reach a coverage of 90% for these assets, which is prudent and adequate from an economic loss perspective. Despite this, the capital adequacy of IDFC Bank is extremely healthy at 18%.

MERGER OF CAPITAL FIRST INTO IDFC BANK

Capital First will add an additional ~3 million customers to the already large and rapidly growing customer base of IDFC Bank and complement it with customer segments and products that IDFC Bank does not cover. Key advantages are lower cost of funds for Capital First in a bank construct; ability to cross-sell banking asset products to customers of Capital First; expansion of distribution network; and greater CASA mobilization. This will translate into a stronger combined entity delivering on profitability metrics of RoA and RoE in a much shorter time frame.

1. We have audited the internal financial controls over financial reporting of **IDFC Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

- 3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

01 CORPORATE INFORMATION

IDFC Limited ('the Company') is a company incorporated in India and is a Non Banking Finance Company (NBFC) regulated by the Reserve Bank of India ('RBI'). It was operating as an Infrastructure Finance Company, i.e. financing infrastructure projects in sectors like energy, telecommunication, transportation, commercial and industrial projects including hospital, education, tourism and hotels upto September 30, 2015. The Company had received in principle approval from the RBI to set up a new private sector bank in April 2014. Since October 1, 2015 the company is operating as NBFC - Investment Company.

02 BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 ("the 2013 Act") and the relevant provisions of the 2013 Act, as applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The Company follows the prudential norms for income recognition, asset classification and provisioning as prescribed by the RBI for non-deposit taking Non-banking Finance Companies (NBFC-ND). The accounting policies adopted in preparation of financial statements are consistent with those followed in the previous year.

Based on the nature of activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

03 SIGNIFICANT ACCOUNTING POLICIES

A. USE OF ESTIMATES

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and any revisions or the differences between the actual results and the estimates are recognised in the current and future periods.

B. CASH AND CASH EQUIVALENTS

Cash and cash equivalents for the purpose of the Cash Flow Statement comprises cash on hand, cash in bank, fixed deposits and other short-term highly liquid investments with an original maturity of three months or less that are readily convertible into known amount of cash and which are subject to an insignificant risk of change in value.

C. CASH FLOW STATEMENT

Cash flows are reported using the indirect method whereby cash flows from operating, investing and financing activities of the Company are segregated and profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

D. INVESTMENTS

Investments which are readily realisable and intended to be held for not more than one year from the date on which such investments are made are classified as current investments in accordance with the RBI guidelines and Accounting Standards notified under Section 133 of the 2013 Act. Current investments also include current maturities of long-term investments. All other investments are classified as long-term investments.

The Company follows settlement date method of accounting for recording of purchase and sale of investments. All investments are initially recorded at cost. The cost of an investment includes purchase price, directly attributable acquisition charges and reduced by recovery of costs, if any. On disposal of an investment, the difference between its carrying amount and the net disposal proceeds is charged or credited to the Statement of Profit and Loss.

Current investments are valued scrip-wise and depreciation / appreciation is aggregated for each category. Net appreciation in each category, if any, being unrealised gain is ignored, while net depreciation is provided for. Commercial papers, certificate of deposits and treasury bills are valued at carrying cost. Long-term investments are carried at acquisition cost. A provision is made for diminution other than temporary on an individual basis against long-term investments. Premium paid over the face value of long-term investment is amortised over the life of the investment on straight line method.

If any indication of impairment based on internal / external factors exists, the recoverable amount of such assets is estimated and impairment is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the net selling price and its value in use, which is arrived at by discounting the future cash flows to their present value, based on an appropriate discounting factor. If at the Balance Sheet date, there is an indication that previously recognised impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of the depreciable historical cost and reversal of such impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

J. EXPENSE UNDER EMPLOYEE STOCK OPTION SCHEMES

The Company has formulated Employee Stock Option Schemes ('the ESOS') in accordance with the SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 ('the Guidelines'). The ESOS provides for grant of stock options to employees (including employees of subsidiary companies) to acquire equity shares of the Company that vest in a graded manner and that are to be exercised within a specified period. In accordance with the Guidelines and the Guidance Note on 'Accounting for Employees Share-based Payments' issued by the Institute of Chartered Accountants of India, the excess, if any, of the closing market price on the day prior to the date of grant of the stock options under the ESOS over the exercise price is amortised on a straight-line method over the vesting period and is charged to the Statement of Profit and Loss as employee benefits expense. In case the unvested stock options get lapsed / cancelled, the balance in stock option outstanding account is transferred to Statement of Profit and Loss.

K. EMPLOYEE BENEFITS

Defined contribution plans

The Company's contribution to provident fund, superannuation fund and pension fund are considered as defined contribution plans and are charged to the Statement of Profit and Loss as they fall due, based on the amount of contribution required to be made and when services are rendered by the employees.

Defined benefit plan

The net present value of the Company's obligation towards gratuity to employees is funded and actuarially determined as at the Balance Sheet date based on the projected unit credit method. Actuarial gains and losses are recognised in the Statement of Profit and Loss for the year.

Compensated absences

Based on the leave rules of the Company, employees are not permitted to accumulate leave. Any unavailed privilege leave to the extent encashable is paid to the employees and charged to the Statement of Profit and Loss for the year.

L. BORROWING COSTS

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Interest cost in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan.

M. REVENUE RECOGNITION

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. In addition, the following criteria must also be met before revenue is recognised:

- Interest is accounted on accrual basis except in the case of non-performing loans and identified advances, where it is recognised upon realisation, as per the income recognition and asset classification norms prescribed by the RBI.
- Income on discounted instruments is recognised over the tenure of the instrument on a straight-line method.
- Dividend is accounted when the right to receive is established.
- All other fees and charges are recognised when reasonable right of recovery is established, revenue can be reliably measured and as and when they become due.
- Profit / loss on sale of investments is recognised on settlement date basis. Profit / loss on sale of investments is determined based on the weighted average cost.
- Revenue from power supply is accounted on accrual basis, unless there is any uncertainty relating to its recovery.

N. SEGMENT REPORTING

The Company's primary business segments are reflected based on the principal business carried out, i.e. investing. The risk and returns of the business of the Company is not associated with geographical segmentation, hence there is no secondary segment.

O. LEASES

Where the Company is lessee

Leases under which all the risks and benefits of ownership are effectively retained by the lessor are classified as operating leases. Amount due under the operating leases are charged to the Statement of Profit and Loss, on a straight - line method over the lease term in accordance with Accounting Standard 19 on 'Leases' as specified under section 133 of the 2013 Act. Initial direct costs incurred specifically for operating leases are recognised as expense in the year in which they are incurred.

P. EARNINGS PER SHARE

The Company reports basic and diluted earnings per share in accordance with AS-20, 'Earnings Per Share', as notified under section 133 of the 2013 Act. Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share are computed using the weighted average number of equity shares and dilutive potential equity shares outstanding at the year end, except where the results are anti-dilutive.

Q. TAXES ON INCOME

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income - tax Act, 1961.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the Balance Sheet date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability. Current and deferred tax relating to items directly recognised in reserves are recognised in reserves and not in the Statement of Profit and Loss.

Since the Company has passed a Board resolution that it has no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income-tax Act, 1961, the special reserve created and maintained is not capable of being reversed and thus a permanent difference. Accordingly, no deferred tax liability has been created in books of account, towards the same.

R. FOREIGN CURRENCY TRANSACTIONS AND TRANSLATIONS

Foreign currency transactions are accounted at the exchange rate prevailing on the date of the transaction. Foreign currency monetary items outstanding as at the Balance Sheet date are reported using the closing rate. Gain or loss resulting from the settlement of such transactions and translation of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Profit and Loss.

S. PROVISIONS AND CONTINGENCIES

Provision against loans and advances

- Contingent provision against standard assets is made at 0.40% of the outstanding standard assets in accordance with the RBI guidelines.
- Provision against non performing advances are made as per RBI guidelines.

Other provisions and Contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation as at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed separately. Contingent assets are not recognised in the financial statements.

T. SECURITIES ISSUE EXPENSES

Issue expenses of certain securities and redemption premium are adjusted against the securities premium account as permissible under Section 52 of the 2013 Act, to the extent balance is available for utilisation in the securities premium account.

U. SERVICE TAX / GOODS AND SERVICE TAX INPUT CREDIT

Service tax input / GST credit is accounted in the period in which the underlying services are received and when there is no uncertainty in availing / utilising the credit.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, its subsidiary companies and its associate companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to 2 subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India. Our opinion is not qualified in respect of this matter.

40 DRAW DOWN FROM RESERVES

During the year ended March 31, 2018, IDFC Bank Limited has made a draw down out of the Investment Reserve account towards depreciation on investments in AFS and HFT categories in terms of RBI guidelines. During the year ended March 31, 2017, the Bank has not undertaken any draw down from reserves.

Appropriation to Reserves

i Statutory Reserve

As mandated by the Banking Regulation Act, 1949, all banking companies incorporated in India shall create a reserve fund, out of the balance of profit of each year as disclosed in the profit and loss account and before any dividend is declared and transfer a sum equivalent to not less than twenty five per cent of such profit. The Bank has transferred ₹ 215.00 crore (Previous Year ₹ 255.00 crore) to Statutory Reserve for the year.

ii Investment Reserve Account (IRA)

As per RBI guidelines, if provisions created on account of depreciation in the 'AFS' or 'HFT' categories are found to be in excess of the required amount in any year, the excess shall be credited to the Profit and Loss Account and an equivalent amount (net of taxes, if any and net of transfer to Statutory Reserves as applicable to such excess provision) shall be appropriated to Investment Reserve Account. Further, the bank may draw down from the IRA to the extent of provision made during the year towards depreciation in investment in AFS and HFT categories (net of taxes, if any, and net of transfer to Statutory Reserves as applicable to such excess provision). During the year ended March 31, 2018, as per RBI guidelines, the Bank has transferred ₹ 0.55 crore from Investment Reserve Account to Profit and Loss Appropriation Account. During the year ended March 31, 2017, the Bank has appropriated ₹ 0.55 crore to Investment Reserve Account.

iii Capital Reserve

As per RBI Guidelines, profit / loss on sale of investments in the 'Held to Maturity' category is recognised in the Profit and Loss Account and profit is thereafter appropriated (net of applicable taxes and statutory reserve requirements) to Capital Reserve. Profit / loss on sale of investments in 'Available for Sale' and 'Held for Trading' categories is recognised in the Profit and Loss Account. Accordingly, the Bank has appropriated ₹ 202.00 crore (Previous Year ₹ 5.50 crore) being profit on sale of investments in the HTM category net of applicable taxes and transfer to statutory reserve.

iv Special Reserve

IDFC has been borrowing through issue of Secured Redeemable Non-Convertible Debentures (**"NCDs"**) and Commercial Papers (**"CPs"**) on Private Placement (**"PP"**) basis, from time to time. Section 42 of the Companies Act, 2013, read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, lays down the provisions subject to which a company is allowed to issue securities on PP basis. The said limit of ₹ 2,000 crore (Rupees Ten Thousand crore only) as approved by the Shareholders at its 19th (Nineteenth) AGM under Section 180(1)(c) of the Companies Act, 2013.

None of the Directors or Key Managerial Personnel and / or their relatives, are in any way, financial or otherwise, interested or concerned in this resolution.

The Board of Directors recommend passing of a Special Resolution as set out in Item No. 6 of this Notice.

Item no. 7

Alteration of Articles of Association

The Reserve Bank of India (**"RBI**"), while issuing Banking licence to IDFC Limited (**"IDFC"**) being promoter of IDFC Bank Limited, had stipulated certain terms and conditions, one of which being restrictions on the transfer of shares of IDFC that no person, without obtaining prior approval of RBI, directly or indirectly, by himself or acting in concert with any other person, can acquire 5% or more paid up equity share capital or voting rights therein of IDFC, which acquisition taken together with the shares / voting rights / compulsorily convertible debentures/ bonds, if any, already held by him or his relative or associate enterprise or person acting in concert with him and / or which may result in aggregating shareholding or voting rights therein of 5% or more (directly or indirectly) in IDFC Bank Limited (**"IDFC Bank"**), in a transaction or in a series of transactions.

Further, Section 58 of the Companies Act, 2013 provides that the shares of a public company are freely transferable. However, Section 58(4) recognises that in certain cases, the Board of Directors of a Company can refuse to register a transfer. Such a refusal can only be made for a "sufficient cause". The power to refuse a transfer can only be used in very limited circumstances such as a requirement of RBI in this case.

Before obtaining Banking license, the existing Article 60A was inserted in the Articles of Association (**"AoA"**) after taking approval of the Shareholders on March 30, 2015 by way of postal ballot. The said article restricted aggregate indirect shareholding of any individual or entity or group in IDFC Bank being equivalent to 5% or more of the paid-up voting equity capital of IDFC Bank, in order to avoid hostile takeover of IDFC / IDFC Bank.

However, banking license conditions prescribed by RBI on IDFC being promoter of IDFC Bank requires putting the same restriction on aggregate shareholding of any person / person(s) acting in concert in IDFC holding equivalent to 5% or more of the paid-up voting equity capital of IDFC.

In order to comply with the restrictions relating to transfer of shares in certain circumstances as required above, it is proposed to replace the existing Article 60A of AoA. The Board of Directors recommended the same to the Shareholders of the Company.

None of the Directors or Key Managerial Personnel and / or their relatives, are in any way, financial or otherwise, interested or concerned in this resolution except to the extent of their shareholding in the Company.

The Draft AoA of the Company will be open for inspection between 10:00 a.m. to 1:00 p.m. on all working days till the ensuing AGM at the Corporate Office of the Company i.e. Naman Chambers, C-32, G-Block, Bandra-Kurla Complex, Bandra (East), Mumbai - 400 051 and at the Registered Office i.e. KRM Towers, 7th Floor, No. 1, Harrington Road, Chetpet, Chennai - 600 031.

The Board of Directors recommend passing of a Special Resolution as set out in Item No. 7 for approval of the Shareholders.

By order of the Board of Directors
