Additional features

i. Settlement option

This is an option to receive any benefit due on maturity date in equal instalments for a period of 3 to 5 years instead of lump sum amount under an in-force as well as Paid-up policy.

- a. This option can be exercised for full or part of the benefit payable under the policy on the maturity date.
- b. The instalments shall be paid in advance at yearly or half-yearly or quarterly or monthly intervals, as opted for.
- c. The instalments shall be derived such that the present value of these instalments at 5-year G-sec yield on 31st March preceding maturity less 50bps is equal to the maturity proceeds chosen to be converted into settlement.
- d. The first instalment shall be paid on Maturity date and next as per the chosen frequency in b)
- e. In case of death of the insured(s) during settlement period, the remaining instalments shall remain payable to the nominee/legal heir(s).
- f. This option shall be exercised by Policyholder atleast 3 months before the due date of maturity.

ii. Special Date

In case the Income or Survival Benefit Frequency is chosen as Annual, then at the time of purchase the policyholder will have an option to choose to receive survival benefit on a “Special Date” as per their choice, instead of policy anniversary. This Special Date can be any date that falls after the due date of first survival benefit, such as spouse's birthday, parents' anniversary, child's birthday, etc. All survival benefit payouts shall be made on the chosen date.

In such a case, the benefit applicable for the policy year when it is due, would be increased for the deferment period, i.e., the period between the policy anniversary and the Special Date, by accumulating the benefit at an interest rate of 3% p.a. compounding monthly. Any change in Interest rate will be subject to IRDAI approval. However, the last instalment due on end of the policy term shall be paid on the date of Maturity only, and not on Special Date.

If opted in at the time of purchase, then the policyholder will neither have choice to change the Income/ Survival Benefit frequency for rest of the policy term, nor change the chosen date in future.

iii. Sub-Wallet

The policyholder can choose to receive full or part of his benefits into his 'Sub-Wallet'. The Sub-wallet will earn a loyalty addition that will accrue daily. This loyalty addition will be at the rate as outlined below:

Lower of (State Bank of India savings bank interest rate + 1.50% p.a AND State Bank of India savings bank interest rate X 1.5 times).

This rate will be reviewed every six months (on 1st April & 1st October every year). The current loyalty interest rate on the Sub-wallet based on the above will be 4.05% compounding annually from 1st October 2024 to 31st March 2025.

The Company may in future change the reference rate from State Bank of India savings bank interest rate to some other index, subject to prior approval of IRDAI.

The policyholder can withdraw the balance from the Sub-wallet, in part or in full, anytime during the policy term. The balance in the Sub-wallet, if any, will be paid to the policyholder at the time of termination or foreclosure of the policy.

The policyholder can dynamically set/amend the proportion of the benefit receivable into his Sub-wallet any time during the policy term by prior intimation to the Company.

iv. Premium Offset

Under a non-Single Pay policy, the policyholder will be able to adjust the premium payable in the policy to the extent of benefits payable by the company, if any. The frequency and timing of benefit payment must match that of premium payment under this option. If the benefit payout exceeds the premium payable under the policy, the company shall pay such excess to the policyholder. However, if the benefit payable is not sufficient to offset the premium payable under the policy, then, the policyholder will be required to pay the balance premium to the company. The benefit will be deemed as paid when used for 'Premium Offset'.

v. Income/Survival Benefit Frequency

Income/Survival Benefits will be payable annually, by default. However, the policyholder will have an option at inception to receive Guaranteed Income (when option 1 is chosen) or Survival Benefit payouts payable (when option 2 is chosen) in instalments as half yearly, quarterly, or monthly instalments. Any request for change during the policy term will be effective from next Policy Anniversary. Instalments for non-annual mode frequencies shall be arrived at by multiplying annual payouts with the corresponding conversion factors below:

Annual in arrears	100% of Income/Survival Benefit (i.e. no loading)
Half - Yearly in arrears	98% of Income/Survival Benefit x 1/2
Quarterly in arrears	97% of Income/Survival Benefit x 1/4
Monthly in arrears	96% of Income/Survival Benefit x 1/12

Annually in advance	93% of Annual in Arrears Frequency
Half - Yearly in advance	94.5% of Income Benefit x ½
Quarterly in advance	95% of Income Benefit x ¼
Monthly in advance	95.5% of Income Benefit x 1/12

However, if any survival benefit is payable during premium payment term then, the following frequency of income/survival benefit shall be available depending upon premium payment frequency. Post Premium Payment Term, the frequency of the Income can be any one from the above table.

Premium Mode \ Income Freq	Annual	Semi-Annual	Quarterly	Monthly

Daily interest shall accrue on policy loan at a rate which the company shall determine. Interest shall be payable on each policy anniversary after the loan date and until the loan is repaid. Any unpaid interest shall be added to the principal loan and bear interest at the same rate.

The loan outstanding shall be recovered from the claim proceeds under the policy. However, the policyholder has the flexibility to repay the loan principal or any part thereof at any time during the policy term before termination.

For in-force and fully paid up policies, the policy will not be foreclosed if the outstanding loan amount including interest exceeds the surrender value. However, for other than in-force and fully paid up policies, if the outstanding loan amount including interest exceeds the surrender value, the policy will be foreclosed after giving intimation and reasonable opportunity to the policyholder to continue the policy.

In our endeavor to create a thriving ecosystem for MSME customers, we wish to encourage MSME owners who are policyholders of Tata AIA Life, by offering lower interest rate for policy loan.

Interest rate applicable to policy loan will be equal to:

- Non female policyholders who are MSME owners: Prevailing SBI (State Bank of India) domestic term deposit interest rate for tenure '1 year to less than 2 years' + 1.5%
- Policyholders who are not MSME owners: Prevailing SBI (State Bank of India) domestic term deposit interest rate for tenure '1 year to less than 2 years' + 2%. This formula will be reviewed annually and only altered subject to prior approval of IRDAI.
