6.	Distributions	Distributions are paid out of Distributable items (retained earnings included). The level of distributions is not in any way linked to the amount paid up at issuance and is not subject to a contractual cap (except to the extent that a bank is unable to pay distributions that exceed the level of distributable items). There are no circumstances under which the distributions are obligatory. non – payment is therefore, not an event of default. Distributions are paid only after legal and contractual obligations have been met and payments on more senior capital instruments have been made. There are no preferential distributions, including in respect of other elements classified as the highest quality issued capital.
